

It's time to throw in the towel!

Valiryo Air Body Dryer

Product Innovator
Award Winner 2019

Technical Features

Weight: 21,60 lbs (packaging weight: 4,62 lbs)

Dimensions: 85,43 x 11,61 x 1,10 in

Material: ABS + PMMA

Air Speed: up to 62 m/h

Temperature of use: between 50 and 104 °F

Drying Time: ~3 minutes

Power: 2800 vatios

Engine Speed: 5000 rpm

Voltage: 220-240 V, 50-60 Hz

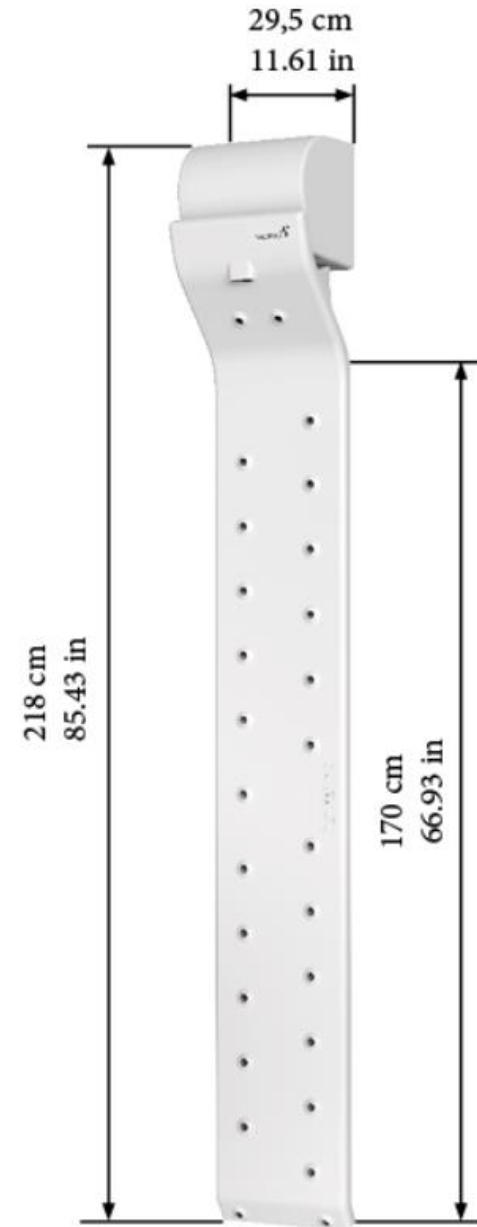

Intensity (amperage): 12A

Energy Consumption: 0,143 kWh per use at maximum power

Water protection rating: IP56

Decibels: 69 dB (a modern dryer produces 85 dB)

Expelled air temperature up to 90 °F above ambient temperature
Temperature and speed variation between upper and lower diffuser: < 2%

Why use Valiryo?

NATURAL DRYING

Valiryo offers natural air drying without the use of a towel.

CONVENIENT

You don't have to do anything, just let yourself be caressed by the breeze.

RELAX IN YOUR OWN HOME

Enjoy the shower time with a new drying experience.

HYGIENIC

Avoid the friction of the towel and exposure to its bacteria.

BENEFICIAL FOR THE SKIN

Notice your skin softer and more hydrated after using Valiryo

SUPPORTIVE

Help people with mobility difficulties to dry out.

BATHROOM SAFETY

Avoid slipping and possible falls due to humidity.

ENERGY SAVING

Its efficient engine saves 86% on towel washing.

ECO-FRIENDLY

Save 100% water and avoid detergent and softener chemicals.

VALIRYO 
The After Shower Experience

Discover Valiryo

TOTALLY WATER RESISTANT

Valiryo has an IP56 protection rating that makes it totally safe to install in the shower. It can also be installed outside by simply plugging it into the mains.

FRICTIONLESS ANTI-BACTERIAL DRYING

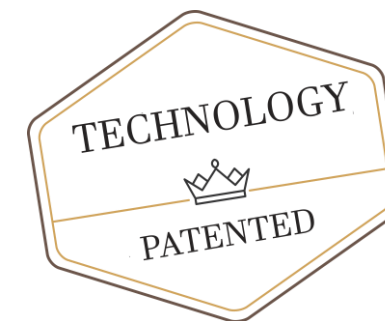

Drying without a towel makes your skin softer and more moisturized. In addition, Valiryo has a silver ion treatment that produces an extra anti-germ effect.

ADJUSTABLE TEMPERATURE AND INTENSITY

You can choose from 16 different combinations of air intensity and temperature (up to +32°C above the ambient temperature), allowing you to customize the experience.

INTEGRATED MOTION SENSOR

Valiryo switches on automatically when we are in front of it at the last power and temperature chosen by the user. It switches off automatically once the drying time has elapsed.

PATENTED TECHNOLOGY

Our technology, developed exclusively by VALIRYO's engineering team, is the only one that offers a homogeneous air flow, both in temperature and intensity, along the 27 diffusers of the column.

S-SHAPED DESIGN AND EFFICIENCY

Its S-shaped design ensures smooth and even drying from head to foot. In addition, its efficient electric motor provides powerful airflow economically and ecologically with a lower noise level than a hair dryer.

NO MAINTENANCE REQUIRED

Valiryo does not require the periodic replacement of any of its parts and its maintenance consists simply of normal cleaning of its surface with a damp cloth. Simplification was something that was taken into account in its design.

**Get ahead of yourself and include in your shop from now
on the product that will be in all the bathrooms**
